Introduction

This is a 1-day turfgrass and landscape management workshop. It is designed to benefit turfgrass and landscape managers in lawn, parks, grounds, athletic field and golf course care. The course emphasizes sound research-based fundamentals in turf and landscape management for Oklahoma. Topics covered include wildlife damage control, Mesonet weather tools, pesticide safety/disposal, maximizing pesticide efficacy, insect pest management, ornamentals/tree selection, turf disease update and bentgrass vs bermudagrass greens.

This course is a cooperative effort among the county, area and state extension educators of the Oklahoma Cooperative Extension Service and Oklahoma State University. This course is provided as an education benefit to further professional career development of course attendees and help attendees to maintain their properties in excellent condition.

Targeted Audiences

- Commercial Lawn Care Operators
- Landscape Installers & Managers
- Golf Course Maintenance Personnel
- Parks & Recreational Facility Personnel
- School Athletic Turf Managers

The program will be submitted for review for CEUs in category 3a, Outdoor Ornamentals and Turf, and in category 10, Demonstration and Research.

Fee: $35.00 per individual

To ensure accuracy for meal count, you must pre-register by phone no later than January 21, 2013. Please call Denise - (580) 223-6570.
