Toro Irrigation is pleased to provide you with the opportunity to become an Irrigation Association Certified Landscape Irrigation Auditor! The Water Auditor class is taught by an Irrigation Association-certified instructor and covers the information you will need to help you pass the IA’s Certification Test. The certification exam will be given the day after the class and you will need to pre-register with the IA separately.

**Water Auditor Class (2 Days)**

**Date:** November 12, 8am–5pm and November 13, 8am–4pm

**Cost:** $200 per person. This price covers the class, all course literature (including books and audit software), and lunch on both days. **You must register separately for the exam.**

**Class Content:** This class teaches students how to perform a field evaluation on an irrigation system to determine efficiency, and how to combine plant water use, soil information and local weather data to calculate efficient watering schedules for irrigation systems. The class also covers best water management practices.

**Deadline:** Space is limited so sign up quickly, but no later than October 15th, 2014.

**Questions:** Contact Malarie Gotcher at (405) 297-3380 or Malarie.Gotcher@okstate.edu

**Registration for the Class:** Malarie Gotcher at (405) 297-3380 or Malarie.Gotcher@okstate.edu

**IA Certification Test (Direct IA Contact Required)**

**Date:** November 14, 8am–12pm

**Cost:** $250 for IA Members; $495 for non-members (must be paid directly to the IA). There is an additional one-time registration fee of $50.00 for members and $175.00 for non-members. **To register and pay for the certification exam, visit the link below, or call (703) 536-7080.**

Registration deadline for the exam: October 17, 2014

**EPA WaterSense Partner:** As a Certified Water Auditor, you are eligible to apply to become an EPA WaterSense Partner! It’s a fast-track process for IA Certified Water Auditors. In today’s water-conscious environment, being a recognized EPA WaterSense Partner— in addition to an IA Certified Water Auditor— increases your credibility and visibility as a water-efficient irrigation professional!
